Campaign Begins With Sermons From Many Pulpits in New York.

EXPOSITION TO OPEN

Grand Central Palace Holds Large Number of Educational Features.

REDUCING PRIZES

Perfect Baby and Most Perfect Foot Among Women Also Part of Programme.

Health week opened yesterday with sermons from many pulpits in the city span of human life through education will be marked by the opening in Grand Central Palace of the largest health exposition ever held.

The exposition is part of a large and varied program of the American Pub-Health Association's semi-centenauspices of this organization and of the local department of health. The organizations to further national and

More radium than ever before was exhibited in this city and valued at half a million dollars was brought here yesterday from Pittsburgh for exhibition and demonstration during the exposition by Hamilton Foley of the Radium Chemical Company of Pittsburgh, who manufactured the gram of radium which recently was presented to Mmc. Curie by the women of America. Guarded by three uniformed policemen and two plain three uniformed policemen and two plain hree uniformed policemen and two plain clothes detectives assigned from Head-quarters, the precious metal was trans-ferred from the Waldorf-Astoria to the Grand Central Palece last night for a special demonstration before physicians

the last three weeks, a perfect baby contest, in which 35,000 already are entered, and a search for a perfect foot among women. Mayor Hylan will be present this evening to make an address of welcome.

While the health exposition, where exhibits are arranged with a view to interesting rather than puzzling or boring the general public, is going on scientific sessions of the association will be held morning and afternoon in the Hotel Astor.

More radium than ever before was exhibited in this city and valued at half a million dollars was brought here yesterday from Pittsburgh for exhibition and demonstration durings the exposition.

Continued from First Page.

Behind the whole aftair is the figure of Dr. Stephen Smith, "father of public loctal health propaganda.

who has so far followed his own preachings that he will celebrate his one hundredth anniversary in a little more than a year. He is still engaged in health work and will be present and give the delegates a word of welcome in the grand ballroom of the Hotel Astor to-night. Dr. Smith's investigations and labor prepared the way for the creation of the metropolitan board of health.

Fat Reducing Prizes Offered.

Among the features of the week are the presentation of prizes to fat men and women who have been reducing for the last three weeks, a perfect baby contest, in which 35,000 already are entered, and a search for a perfect foot among women. Mayor Hylan will be restant and health was a fine Douglas Graham; Lady Douglas Graham; Lady Boetes, George J. Gould, who is 15 Gould, and Miss Golid Gould, who is 15 Gould, and Miss Golid and Miss Golid and the youngest of the family. Mr. and Mrs. A. J. Drexel, Jr., now are living in England. Mrs. Gould resisted all appeals to appear on the stage after her relitred and where their domestic life was happy and admirable. Their children and where their domestic life was happy and admirable. a vanadium steel container three quarters of an inch thick, the radium show-de illuminating powers through the container. Gold, various stones, and a mineral known as willcomite were used by M. Foley in his demonstration, which included the interesting eight of an exploding atom due to the presence of the force of radium.

What is claimed to be the most important phase of radium is the powers of heat which the force contains. It was so experiment with the hope of controlling this force of heat in radium that the gram of radium was presented to Mme. Curle.

It was stated that twenty-five grams of radium are expected to be the output this year. This is a larger amount than has ever before been manufactured at any time since its discovery.

It is served that twenty-five grams of radium are expected to be the output this year. This is a larger amount than has ever before been manufactured at any time since its discovery.
